

Summer of Sunflowers

With an entire summer ahead of her, Shannon returns to her loving grandmothers home on the Navajo reservation shortly after her sixteenth birthday, with great expectations for coming of age and bonding once again with her grandmother. However, she finds more than she couldve imagined and the summer is a very unexpected one. What should be a peaceful summer and a break from a hectic city life in Los Angeles quickly turns into one of chaos as Shannon experiences a roller-coaster of events--a surprise visit from strangers, the murder of a local Navajo man, an emotional visit to the hospital, and a myriad of peculiar events, all of which keep readers guessing at what might happen next. With all sorts of misfortune and tragedy swirling around her, Shannon manages to find herself falling in love with a young man for the first time and struggles with her new feelings. Will Shannon ever find peace during her summer at Grandmas?
