

## Reviving Evan (The Dismantling Evan Series) (Volume 2)

\*\*\*Bonus Material: SAVING GAVIN and RESURRECTING GAVIN are included in this special edition print.\*\*\* Just a few short weeks after the school shooting that rocked Braxton Springs, life has resumed. School is back in session, and, with it, the students who bullied Gavin Ferguson into bringing a gun to that fateful pep rally. But life can never return to normal for Evan and her friends. Gavin is still in the hospital. Asher and Nikki are planning futures away from home. And Brody is pulling away from them all, leaving Evan feeling more alone than ever. Just when she thinks shes gotten control of her emotions and secrets, the spirals strike again. Evan struggles to regain her life free of medication and control the urges to fall back into dismantlement. But Brodys hot-and-cold attitude confuses her, just as the communitys forgiveness to the bullying elite creates a bitter rock around her heart. Will the suffering inflicted upon Evan and her friends throw her back into a spiral, threatening the life she has rebuilt for herself? Or will she rise above the tragedy and loss, reviving the life she thought she could never have? Reviving Evan offers an insightful look into the lives of six teenagers thrust together by shared grief, and how those lives are individually affected by love, loss, and painful mistreatment by others.
