

City Of Deceit (Hollow Moon Book 3)

Raja Surya, young heir to the throne of the moon of Yuanshi, cannot stay out of trouble for long. Zotz Wak, intrepid boy inventor otherwise known as The Flying Fox, decides Earth is the place to become a man. Together they must battle the dystopian darkness of 23rd-century London: a city of deceit, under the thumb of corporations, its people barricaded behind flood walls, bewitched by the hypnotic holoverse and worse. The United Nations is deciding the fate of Suryas world. The Que Qiao Corporation is using the threat of alien monsters to call for war. Ravana OBrien, the heroine of their previous adventures, is stricken with a mystery illness and her hollow moon home has problems of its own. Surya never thought he would be in the captains chair aboard the first ever interstellar battleship. Zotz never expected to find himself accused of being a spy and terrorist at the centre of political skulduggery in London. The far-flung worlds of the five systems would never be the same again. Taranis, the dark priest of destiny, has returned.
