

## The Yo-Yo String

This story concerns the tragedies that befall a young girl when her parents separate and her father remarries a witchy wife. Annie, the girl, begins running around with a rough crowd, starts taking drugs, smoking marijuana and becomes pregnant by a young man from the wrong side of the tracks. The two marry, and then divorce. Self-pity sends her to more drugs and ultimately jail. When she finally meets someone with whom she can make a happy life, its all taken away from her. However, this new love and her second pregnancy manage to help get Annie's life in order and her parents back together, but not before many moments of tears, bloodshed and deaths. This story is highly emotional and thought provoking. It has a very unusual ending.
